iDance Zero

Mobile DJ Workstation with Universal dock for iPod

Product Overview

*MIX MUSIC FROM YOUR IPOD LIVE,
AUDIO & VIDEO*

PRODUCT DESCRIPTION

The Dj-Tech iDance Zero is the affordable iPod mixing console that provides full control of your music with real-time scratching (via jog wheel), a stunning DSP section for the color of your music and a direct link to connect your iPod to your computer.

Key Pitch insures that DJs can easily change the key of the music which is nice for Karaoke as well. The iDance Zero features a fresh and innovative new iPod docking system that allows users to play and mix songs simultaneously from your iPod or/and any other sources like another iPod connected directly to the mixer or a CD Player.

All these operations without the need of a computer.

iDance Zero offers as well Twin USB Connectivity: 1/ connect iDance Zero to your computer for Slave mode then iPod will communicate with your computer directly , or 2/ connect iDance Zero to the computer and record directly with the freeware which is included : Audacity for PC and Mac, and Magix for PC.

In addition to the Twin USB connectivity, the iDJ2 comes complete with line inputs for audio sources including a microphone, CD players and turntables.

This is an extraordinary mixing console is coming with a built-in Sampler : you can record any source: iPod, CD, or turntable and Scratch or DSP it, or just play with the current music.

iPod Direct Mode turns iDance Zero into the ultimate iPod player, allowing you play any music from your iPod, including songs purchased from the iTunes music store.

it also supports iPod docking and charging, to keep the music playing and the party going all night long.

With the Video output, Disc Jockey, Karaoke or Video Jockey application are opened to you.
