About Jochen:

Jochen started to play electronic dance music as a DJ in the year 2000. He soon noticed that he wants to do more than just play records, so he started to produce electronic dance music in the year 2005. Since then he started to play out his productions live in the clubs and many live acts with lots of guest musicians followed. In the year 2011 his first commercial Single and EP were released on Superpursuit Records and Plusquam Records. From 2012 on, Jochen started his own label called Nachtexpress Records, and became a part of the famous German agency Contact Booking and the record label Gayle San Recordings. Cooperations with Gayle San, Jam El Mar, Burhan K., Alex Kvitta, and more followed. Until today you can find his releases on GSR, Wasabi Rec, Complex Textures, Play my track recordings, Attention Inc. Music, Muenchen, Hero in my hood, Future Lovers and finally for sure on Nachtexpress Records. Jochen's DJ & Live Performances are always deep, tribal, hypnotic and massive.
