

SL Mk III

Getting Started Guide

Overview

SL MkIII

Thank you for buying the Novation SL MkIII, our MIDI and CV-equipped keyboard controller with eight-track sequencer.

SL MkIII is the centrepiece that can be used to control your whole studio, working perfectly alongside your DAW. Make working with your hardware easy and creatively rewarding, and construct your next production in the eight-track polyphonic sequencer, with everything staying in sync.

Route anything anywhere using USB; MIDI In, Out, Out 2/Thru; three pedal inputs; Analogue Clock Out; and two CV Pitch, Gate, and Mod outputs.

Play expressively from the semi-weighted, synth-style action, and add aftertouch, which can be assigned to anything you like. The grid of 16 velocity-sensitive pads are great for finger drumming and can be used for launching clips in Ableton Live.

Build up your sequences quickly and easily using the built-in Circuit sequencer, especially adapted for SL MkIII, and use scale modes for easy melody generation.

All controls can be automated and recorded, enabling you to create truly unique and evolving sequences and take full control of your setup.

Enjoy!

2. Power the SL MkIII using the included PSU

Remove both the product and the power supply from the box. Connect the PSU. Switch on.

3. Connect hardware and/or computer

To hook up to your computer connect the included USB cable.

To connect your MIDI hardware use a MIDI lead and plug one end into the 'OUT' port on the SL and the other to the MIDI 'IN' port on your hardware.

Use jack-to-jack cables for controlling and syncing modular gear or other hardware that requires analogue control to your SL MkIII.

4. Basic Overview – Start Playing

The SL is ready to use. In your DAW, such as Ableton Live, it will output notes and controls right away.

There is a user guide available online from www.novationmusic.com to take you deeper into SL MkIII's abilities.

5. Register and Download the Included Software

Go to www.novationmusic.com/register and click Register Your Product.

The image shows the Novation website's login and registration page. The header features the Novation logo and navigation links: Products, Community, Support, Where to buy, and a search bar. Below the header, the page is divided into two main sections. On the left, under the heading "Login", is a section titled "Register Your Product" with links for "Forgot your password?", "Don't have an account?", and "Options: add product registration to account page? Click here.". On the right, there are input fields for "Email address *" and "Password *", each with a placeholder text "Please enter your email address" and "Please enter your password" respectively. A "Login" button is located at the bottom of these fields.

The image shows a registration form for a product. It contains two main sections. The first section is labeled "Product *" and includes a dropdown menu with "SL MkIII" selected, a "Select" button, and a placeholder text "Please select the product the you wish to register". The second section is labeled "Serial Number *" and includes a text input field with a placeholder text "Please enter the serial number".

Select SL MkIII from the dropdown list and enter your serial number. You can find it on the back of this booklet and on the label on the underside of your product. It is 12 or 13 characters long. The first three characters can be numbers or letters, but the rest will only be numbers.

Your serial number is not the same as the software bundle code.

Then click "Get My Stuff" to download your software. If you don't have a Novation account, we will ask for a few details.
