## 2+2 CHANNEL DJ MIXER

Xone:23 is a high-performance 2+2 channel DJ mixer, harnessing next generation analogue circuitry to deliver exceptional audio fidelity. The mixer is equipped with the legendary Xone filter system, 3 band EQ with total kill, plus an external FX loop for maximum creative flexibility. The crossfader has switchable curve settings for blending or scratching styles and is easy to replace. Upgrade to a custom Innofader for ultimate crossfader performance.

With studio grade 20dB headroom and balanced XLR main outputs delivering an impressive +28dBu max, Xone:23's power and performance make it a worthy addition to the prestigious Xone series.

Club Photography by Peter Lowery

There are many imitations of the renowned Xone filter system – this is the real deal. Xone:23 features High Pass and Low Pass filters with frequency and resonance controls.

Seamlessly integrate your favourite external FX unit into your setup with send and return connections plus FX loop switching.

Both channels feature 3 band EQ Isolator, allowing you to creatively eliminate frequencies and bring them back into the mix with complete control.
