

K167 DJ

OVER EAR, CLOSED-BACK DJ HEADPHONES

HIGHLIGHTS ■

Professional 40mm Drivers

For high SPL and accurate detail over a 10Hz – 24kHz frequency response

Over-ear, Closed-back Design

For incredible comfort and maximum noise rejection

Built to Travel

Professional 3D-axis folding mechanism for easy storage and transportation

Built to Last

XRP³ glass-fiber reinforced polymer parts support a lifetime of use

Designed for professional DJs and electronic music producers, the K167 DJ headphones feature an over-ear, closed-back design for incredible comfort and maximum noise rejection. The large 40mm drivers deliver high sound pressure levels and impressive audio quality—ensuring premium performance in the loudest clubs or most demanding studios. And with their sleek design and rugged construction, the K167 DJ headphones not only meet the challenge of any performance, they do it in style. Simply fold them down for compact, easy transport and head to the next show.

KEY MESSAGES ■

PROFESSIONAL DRIVERS

When it comes to audio quality, driver size and weight are critical, especially in the lower frequencies. Generous 40mm drivers deliver high sensitivity for powerful output, plus an extended, balanced frequency response that reveals every detail of the mix without artificially coloring the sound. The high SPL and incredible accuracy of the K167 DJ make it an excellent DJ headphone, allowing you to hear every layer of what you're doing over the noise of the club and stage.

BUILT TO LAST

Premium, stylistic materials support a timeless design and a headphone that is long-lasting, rugged and durable.

IN THE BOX ■

K167 DJ Headphones, gold-plated screw-on 3.5mm (1/8")-to-6.3mm (1/4") adapter

BUILT TO TRAVEL

A 3D-Axis professional folding mechanism combines with lightweight and quality construction to allow users to carry their headphones wherever they're needed. 32 Ohms guarantees that whether you're plugging into a mixer, a board, a computer or a music player, you'll have the signal strength you need to drive the headphones to full output.

TRY IT FOR YOURSELF ■

Select a track you're familiar with and play it through the K167 DJ. Turn the music up high and note the excellent SPL and outside noise rejection. Take the headphones off and play around folding and unfolding them. See how easy it is to fold for storage and transportation.
